AB203 Standard Carry bag

Assembly Instructions

Base, telescopic pole, 2 short support arms and 2 long support arms

Unscrew the base cap.

Remove the cap, fill the base with water or sand and re-fasten the cap.

Fit the telescopic pole into the base. Align the cutout in the pole to the arrow shown on the base cap.

Fit the two short support arms into either side of the base.

Fit the two long support arms to the telescopic pole hub. Note the orientation of the support arm to the hub.

Attach the top graphic eyelets to the long support arms.

Attach the bottom graphic eyelets to the short support arms.

Raise the telescopic pole to the desired height to tension the graphic.

Graphic attached to the base.
